

DS&T-642-87

6 OCT 1987

MEMORANDUM FOR: Director, Foreign Broadcast Information Service

FROM: R. E. Hineman  
Deputy Director for Science and Technology

SUBJECT: Updated FBIS Strategic Plan

REFERENCE: Memorandum from DDS&T to Office Directors, dated 22 Sept 1987, Subject: Modifications in Strategic Plan Schedule

The following issues, discussed during the briefing of the FBIS Strategic Plan, require clarification or further development. Please address these issues and any other changes in your plan in your briefing at the Fall Management Conference on 12 November:

a. FBIS should prepare a paper defining "open source" and "public media" and exploring the implications for the future of FBIS of focusing on one or the other, including the impact on targets, manpower requirements, funding, customers, and products.

b. What are the real costs, advantages, and disadvantages of (1) taking back the JPRS printshop from P&PD; (2) contracting out for printing the Daily Reports and JPRS publications; and (3) establishing a copying, rather than printing, facility in FBIS to reproduce the camera-ready pages?
